

OVERVIEW

Vision Backup Home

Vision Backup Home was designed to simplify home data backups with an easy to use GUI. Backup and restore to multiple media's including CDR-RW/DVD-RW, USB/Flash Drives and Hard Drives. Keep your data safe with on-the-fly, 448-bit encryption while maximizing storage efficiency with built-in, adjustable compression. Vision Backup Home is installable on Windows 2000, XP (Home and Pro) and Vista, and includes free plug-ins such as Outlook Express backup and My Desktop and Files backup.

Highlights

- Backup and restore to and from CD, DVD, USB/Flash Devices and Hard Drives
- Advanced scheduling that doesn't require a password (easy setup)
- Easily select files for backup with an easy to use file tree
- Quickly backup all your music files (.mp3) or pictures (.jpg) with templates
- Expand Vision Backup's capabilities with FREE plug-ins such as iTunes plug-ins/settings, my Bookmarks, my Desktop and Files and more

*All features in the above diagram are not included in this version of Vision Backup. To view features by product, please refer to the product comparison chart found at the end of this document. To utilize all features, you are recommended to use Vision Backup Server w/ MS SQL & Exchange.
